## Lab 4 – Workspace Administration

### Lab 4.1 Explore Workspace Monitoring report

Open the Workspace Monitoring report using the following direct link:

<https://app.fabric.microsoft.com/groups/7c209a49-9fdb-470f-babb-e18258ae6dd8/reports/11f14bf5-9de2-424f-90cf-ddbaa7c441cc?experience=fabric-developer>

Try and find the answer to these questions:

1. How many operations are there in total?  
Hint: it's on the workspace page
2. What is the Avg Query Duration for semantic models  
Hint: it's on the SM | Execution page
3. What day had the highest combined Query CPUTime  
Hint: it's on the SM | Execution page
4. What is the total query CPU time on March 21<sup>st</sup> for eventhouses  
Hint: it's on the Eventhouses page

# Community Conference

## Answers:

1. How many operations are there in total?  
6368
2. What is the Avg Query Duration for semantic models  
22.5
3. What day had the highest combined Query CPUTime  
March 24<sup>th</sup>
4. What is the total query CPU time on March 21<sup>st</sup> for eventhouses  
0.11
