Community Conference

Lab 2 – Tenant Administration: Admin Monitoring

Lab 2.1 Feature Usage and Adoption Report

Navigate to the Feature Usage and Adoption Report. You have been added with the viewer role on the workspace.

Direct link: https://app.fabric.microsoft.com/groups/3866c364-5478-454c-83ca-d2c7adfd990a/list?experience=fabric-developer

Explore the overview page and try and find the answer to these questions

1. What is the most active workspace?
2. Who is the most active named user?
3. What day had the most active users?
4. How many users have used the CopilotInteraction operation?

Navigate to the Activity Details page

- Select an operation in the "Most Active Operation" visual
- The "Activity Details page" button gets active
- Click on the button
- Explorer the activity details in the table visual

Community Conference

Navigate to the Analysis page

- Create a filter on the "AquaShack" workspace
- Visualize data across multiple dimensions
- Who is the most active user? And what operations did the person do?
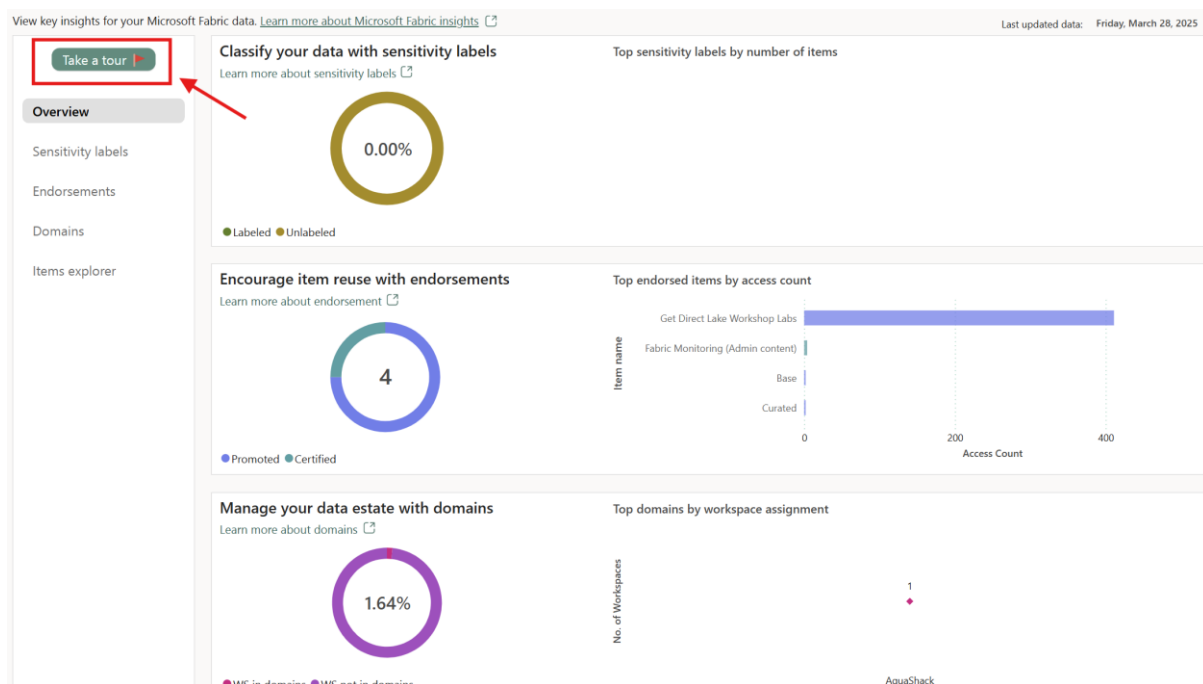

Navigate to the Inventory page

Explore the page and try and find the answer to these questions

1. What workspace have the most items?
2. How many active items are there in the workspace?
3. Witch item type have the most active items?

Browse, analyse and get familiar with the report

Lab 2.2 Explore the Purview Hub report

Navigate to the Purview Hub Report and "Take a tour" in the report

Community Conference

Lab 2.3 Fabric Unified Admin Monitoring

Navigate to the FUAM workspace

Direct link: https://app.fabric.microsoft.com/groups/407fa34a-1ccf-4ddd-b0e1-26c869cc0497/list?experience=fabric-developer

Workspaces -> FUAM -> FUAM_Basic_Overview_Report

Explore the report

Explore the pipelines and notebooks

Explore the FUAM wiki
