# Community Conference

# Lab 3 – Capacity Administration

Lab 3.1 Explore Capacity Metrics app report
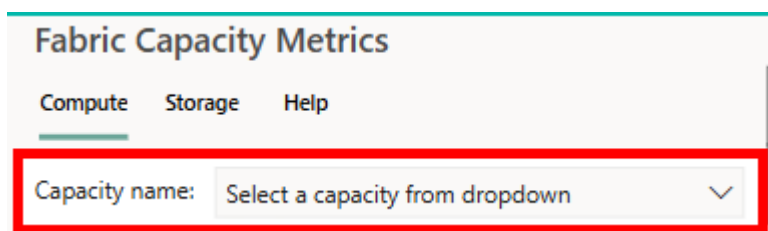

Go to Capacity Metrics app.

App > Microsoft Fabric Capacity Metrics FabCon Vegas 2025:

If you don't see the app, select "Get apps", navigate to "Organizational apps" and install the app "Microsoft Fabric Ca...":

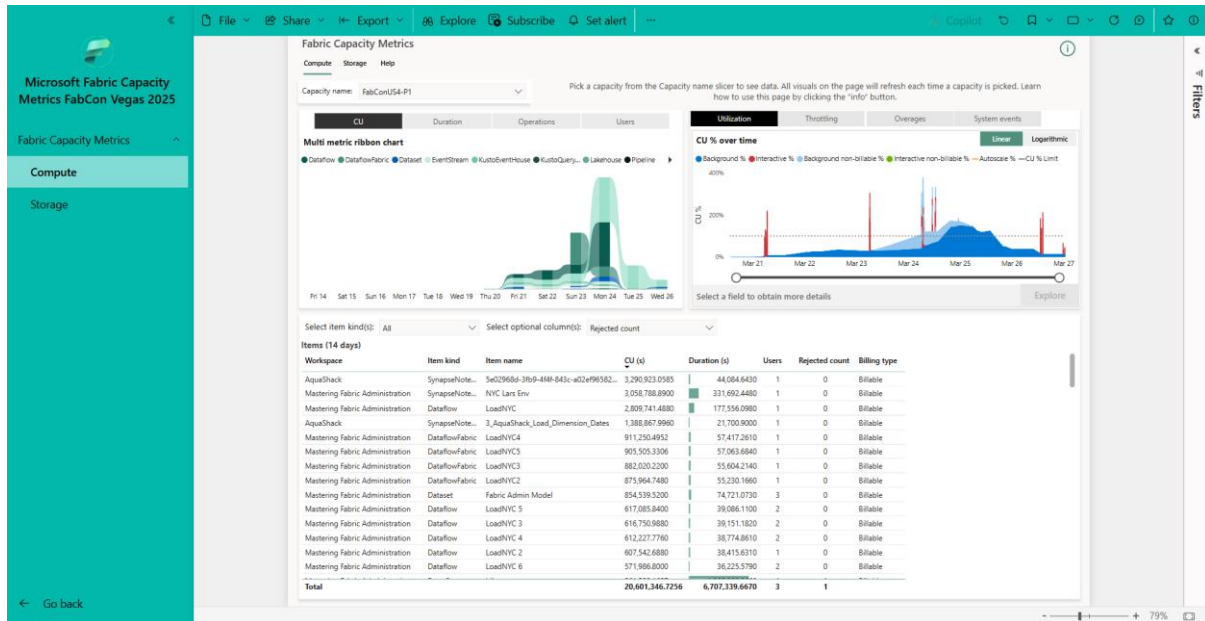

Select capacity a capacity in the Capacity Name slicer:

For the questions below, you should use **FabConUS4-P1,** but you are welcome to look at the other capacities as well.

Once a capacity has been selected, the report will be populated with data.

Community Conference

Browse around in the report, remember to look at Storage numbers as well.

Try and find the answer to these questions:

1. Which item has consumed most CUs the past 14 days?
   What about on 23 March 2025?
2. How much "% of Base Capacity" background usage did Item "NYC Lars Env" in Workspace "Mastering Fabric Administration" use on 23 March 2025 around noon?
   Hint, use zoom-slicer on "CU % over time" visual to select relevant TimePoint Detail time interval.
3. There has been Copilot usage in Workspace "Mastering Fabric Administration" on 21 March 2025 after 4:55:00 AM. Is that interactive or background usage?
   You can also find Copilot usage on 26 March after 1:00:00 AM
   Hint, operation type is called "Copilot in Fabric"
4. Has any operations been throttled on the capacity?
   If yes, when?
   If no, have the capacity been close to throttling limits?
